Data loader PyTorch
Graded Quiz • 15 min Due Oct 12, 2:59 PM CST Congratulations! You passed! GRADE **Keep Learning** 100% TO PASS 80% or higher Data loader PyTorch LATEST SUBMISSION GRADE 100% 1. How many total Samples are in the dataset 1/1 point 40000 ✓ Correct correct 2. Select the correct output from the lab two question two. Such that even indexes contain the path to images with positive 1/1 point or cracked samples and the odd element contain the negative images or images with out cracks. Make sure you sort the output. 50 100 150 200 0 50 100 150 200 50 100 150 200 50 100 150 200 50 100 150 200 50 100 150 200 Correct correct 3. From Lab 2 question 3 select the correct image that represents the first four elements of the validation data. 1/1 point  $\odot$ 0 50 100 150 200 0 50 100 150 200 0 50 100 150 200 0 50 100 150 200 ✓ Correct correct 4. From Lab 2 Question 4 display the sample 9 and sample 100 from the training dataset using the appropriate object. 1/1 point  $\odot$ Correct correct 5. From Lab 2 Question 5 display the sample 15 and sample 102 from the validation dataset 100 -150 100 150 200 y=1 100 -

> 100 y=1

✓ Correct

correct
